Endorsement to Utah: Professional Geologist

KEY

Equivalent to Utah License

Additional Documentation Needed

No Equivalent License to Utah

Utah Statute: 58-76
Current Qualifications:

Each applicant for licensure as a professional geologist shall:

- · Provide satisfactory evidence of:
 - (a) a bachelors or graduate degree in the geosciences granted through an institution of higher education that is accredited by a regional or national accrediting agency with a minimum of 30 semester or 45 quarter hours of course work in the geosciences; or
 - (b) completion of other equivalent educational requirements as determined by the division in collaboration with the board;
- · Provide satisfactory evidence of:
 - (a) with a bachelors degree: five years of active professional practice;
 - (b) with a masters degree: three years of active professional practice; or
 - (c) with a doctorate degree: one year of active professional practice; and
- Pass ASBOG FG and PG Exams

Additional Jurisdictions

District of Columbia

American Samoa

Guam

Northern Mariana Islands

Puerto Rico

U.S. Virgin Islands

Information in this document is subject to change at anytime, and is not a guarantee of meeting the

requirements for licensure. Please see the next page for additional instructions.

Application Process

To apply to Utah using one of the licenses deemed equivalent (jurisdictions in green on the above map), you must have held the license indicated on the map for at least one year. Additionally, the license must be active and in good standing.

In addition to a complete application for licensure and the appropriate fees, you must also submit an official verification of your license. If you have been subject to previous disciplinary actions on any professional license or answer yes to any of the questions found on the qualifying questionnaires within the application, you will be required to provide additional information regarding those incidents. See the application for complete instructions.

Additional Requirements

For jurisdictions that do not meet the minimum requirements for endorsement outlined in 58-1-302, applicants may still be able to use their current license to satisfy some of the requirements for licensure. In addition to a license verification from the jurisdiction, see the information below needed to correct deficiencies in endorsement for specific states or territories.

Jurisdiction	Additional Items/Information Required
Alaska	Please contact the board for additional information for your specific circumstance.

Jurisdictions with no equivalent State or Territory-Wide License:

If no equivalent state or territory-wide license is issued by a jurisdiction, local jurisdiction licenses (such as those issued by a city or county) or non-equivalent state or territory licenses may be used to assist with documentation of compliance with some Utah qualifications. Applicants must submit a verification of the license they feel may demonstrate components of Utah qualifications that includes documentation of hours, exams, and other qualifications completed to obtain the license. Additionally, providing information regarding the scope of the license will assist the Division in determining equivalency.
