

Endorsement to Utah: Residential Master Plumber

Utah Statute: 58-55

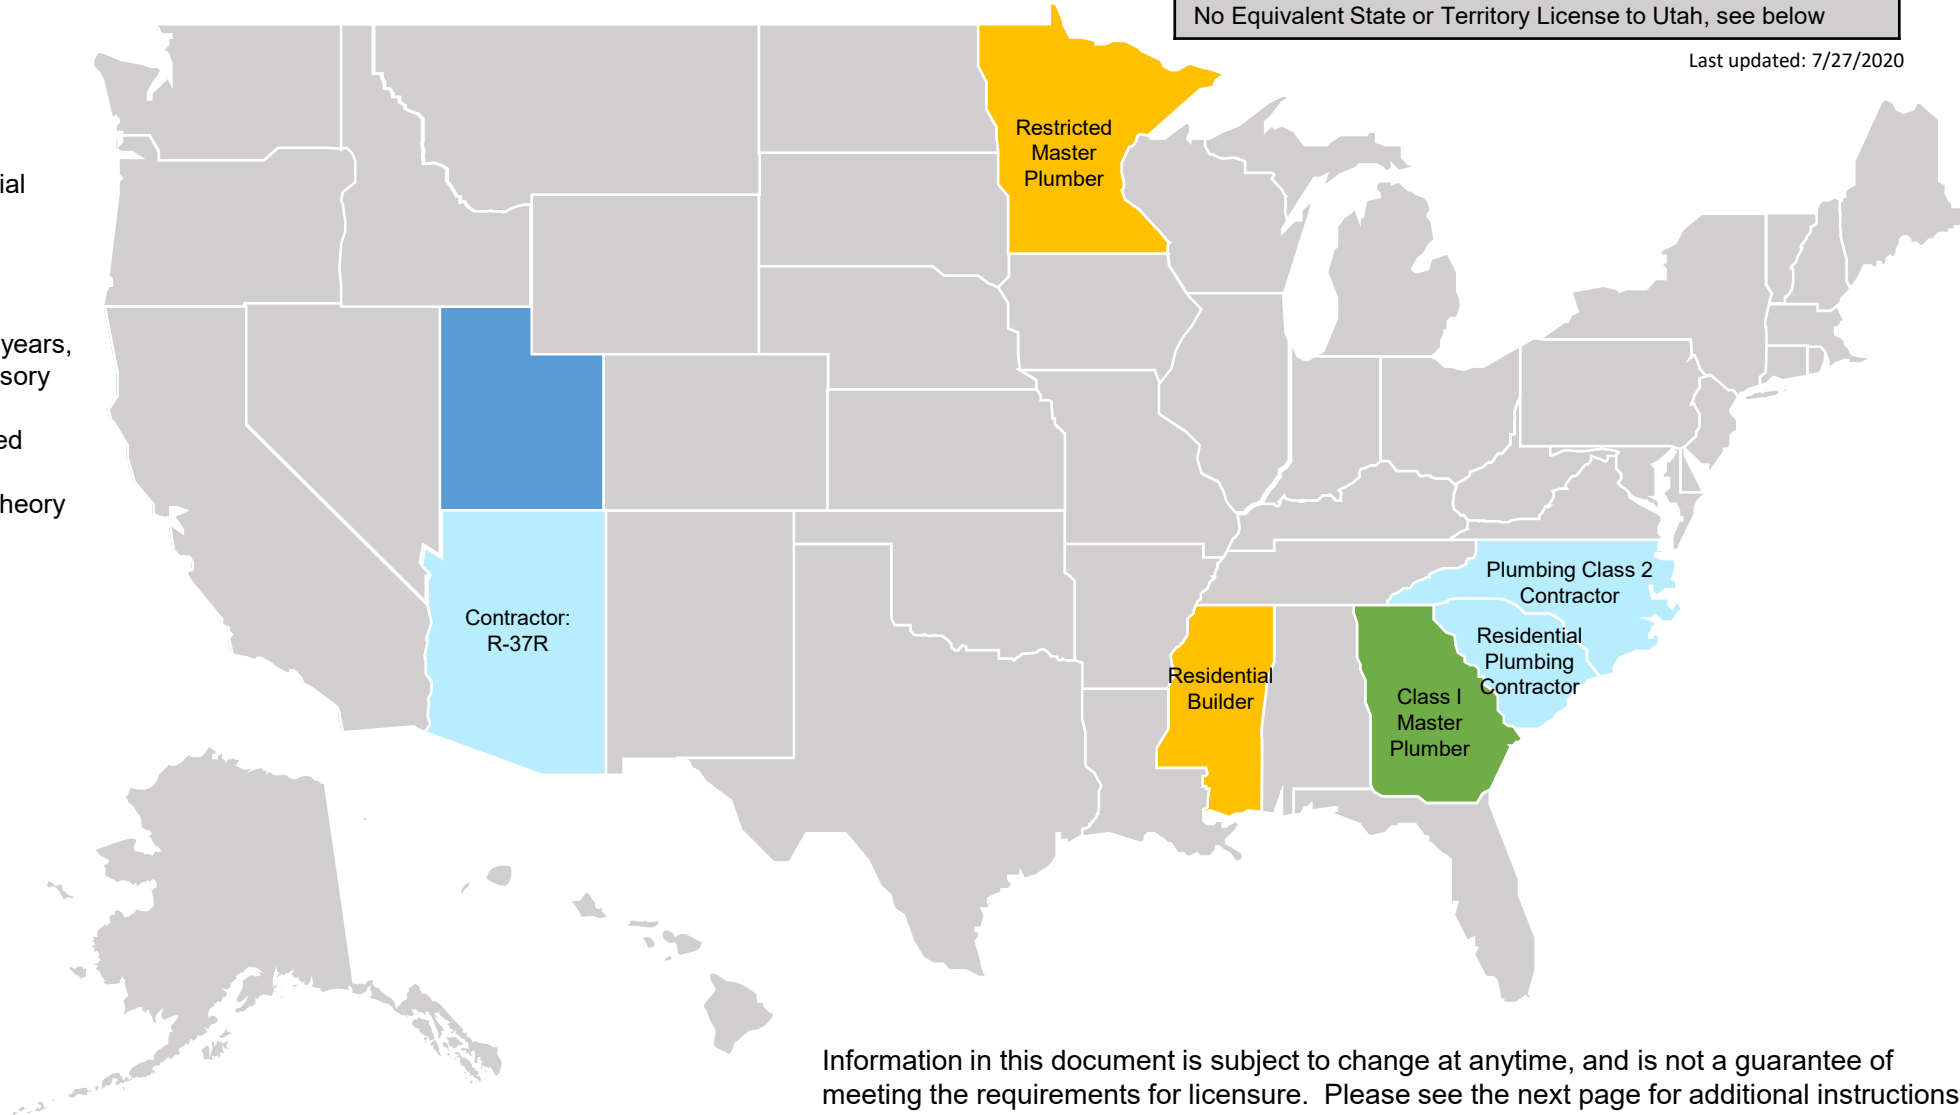

Qualifications:

Each applicant for licensure as a residential master plumber shall:

- Meet one of the following experience requirements:
 - have been a licensed residential journeyman plumber for at least 2 years, with a minimum 2 years of supervisory experience; or
 - meet the qualifications for expedited licensure as established by rules;
- Pass the Utah Residential Plumbers Theory and Practical Examination.

KEY
Equivalent to Utah License
Additional Documentation Needed, see below
The responsible person may qualify, see below.
No Equivalent State or Territory License to Utah, see below

Last updated: 7/27/2020

Additional Jurisdictions
District of Columbia
American Samoa: Tradesman
Guam
Northern Mariana Islands
Puerto Rico
U.S. Virgin Islands:

Information in this document is subject to change at anytime, and is not a guarantee of meeting the requirements for licensure. Please see the next page for additional instructions.

Application Process

To apply to Utah using one of the licenses deemed equivalent (jurisdictions in green on the above map), you must have held the license type indicated on the map for at least one year. Additionally, the license must be active and in good standing.

In addition to a complete application for licensure and the appropriate fees, you must also submit an official verification of your license. If you have been subject to previous disciplinary actions on any professional license or answer yes to any of the questions found on the qualifying questionnaires within the application, you will be required to provide additional information regarding those incidents. See the application for complete instructions.

Additional Requirements

For jurisdictions that do not meet the minimum requirements for endorsement outlined in 58-1-302, applicants may still be able to use their current license to satisfy some of the requirements for licensure. In addition to a license verification from the jurisdiction, see the information below needed to correct deficiencies in endorsement for specific states or territories.

Contractor Licenses: Responsible Individual

Jurisdictions identified in light blue issue a contractor license with scope and qualifications similar to the Utah Residential Master Plumbing license. If you can demonstrate that you were the responsible individual who met the requirements for licensure on behalf of the contractor, you may qualify for endorsement.

Jurisdiction	Additional Items/Information Required
American Samoa	Provide documentation of experience and exams required for Tradesman Certificate via official American Samoa Verification
Minnesota	Provide documentation of experience and exams required for Restricted Master Plumber via official Minnesota Verification
Mississippi	Provide documentation of experience and exams required for a Residential Builder that illustrate proficiency in Residential Plumbing. This should include an official verification of your Mississippi license, as well as documentation of jobs/hours specific to the plumbing trade.

Jurisdictions with no equivalent State or Territory-Wide License:

If no equivalent state or territory-wide license is issued by a jurisdiction, local jurisdiction licenses (such as those issued by a city or county) or non-equivalent state or territory licenses may be used to assist with documentation of compliance with some Utah qualifications. Applicants must submit a verification of the license they feel may demonstrate components of Utah qualifications that includes documentation of hours, exams, and other qualifications completed to obtain the license. Additionally, providing information regarding the scope of the license will assist the Division in determining equivalency.
